

Associate of Applied Science - Occupational Studies

The Associate of Applied Science is designed specifically for students who have completed an apprenticeship program and received a certificate of completion from the U.S. Department of Labor/Bureau of Apprenticeship and Training. Apprenticeship occupations accepted are carpenter, cement mason, structural draftsman, machine builder, machine repair and maintenance, millwright, wood model maker, mold maker (plaster and die cast), operating engineer, plumber, pipe fitter, and tool and die maker. Other apprenticeship programs would need to be reviewed on a case-by-case basis for consideration by the lead faculty. The curriculum will provide students with a strong academic foundation and introduce them to new ideas in sustainability, business, entrepreneurship and computer systems.

Where do I start?

Complete the application process for Jackson College

<http://www.jccmi.edu/StudentServices/Admissions/>

1. Contact Joyce Dunbar, Enrollment Services Specialist, to set an appointment. e-mail DunbarJoyceD@jccmi.edu or 517.796.8602 ext. 8247
2. Provide a copy of your Bureau of Apprenticeship and Training Certificate of Completion. Your Certificate of Completion will generally equate to 20 technical elective credits toward your degree.

Additional Program Requirements:

Students are required to take a minimum of 24 credits of Jackson College's general education requirements.

Students are also required to take 17 credits of core requirements as follows:
